

# Vegetation Management for Seattle Parks Viewpoints

## TABLE OF CONTENTS

	<u>Page</u>
<b>Viewpoint Study Sites Map</b>	
<b>Project Summary</b>	
<b>I. Introduction</b>	
A. Project Goals and Objectives	1
B. Viewpoint Site Selection Criteria	2
<b>II. View Management Landscape Zones</b>	
A. Zone 1 – Developed park landscape	3
B. Zone 2 – Transition area at crest of slope	3
C. Zone 3 – Hillside	4
Figure 1 – Typical Viewpoint Landscape Management Zones	5
<b>III. Management Prescriptions</b>	
A. Maintenance Categories for Existing Conditions	6
1) Canopy Conversion	
2) Pruning and Invasive Weed Removal	
3) Slope Stability and Erosion Control	
Critical Areas Designation	8
Maintenance Categories For Existing Conditions (Chart)	9
Viewpoint Vegetation Management Categories Matrix	10
B. Maintenance Practices for Long-term Care	11
C. Monitoring Viewpoint Restoration	11
D. Managing the Urban Forest	12
E. Vegetation Management Prescriptions for Viewpoint Sites	13
Public Involvement Process	13
<b>IV. Maintenance &amp; Management Procedures</b>	
A. Slope Stability and Erosion Control	14
B. Pruning and Removal Standards	16
C. Invasive Weed Removal	19
D. Restoration Planting:	20
• site preparation	
• plant selection	
• planting	
• establishment care	
• monitoring	
<b>V. Implementation</b>	
A. Priority Actions	25
B. Phasing	25
C. Labor Sources	26
D. Cost Estimates	27

<b>VI. Individual Site Evaluations &amp; Management Recommendations</b>	<b>VI - 1</b>
A. Overview	1
Viewpoint Management and Maintenance Requirements Matrix	after 1

- B. Individual Viewpoints Evaluation and Management  
         (alphabetical)
- Location and View Types
  - Summary of Existing Conditions
  - Maintenance Prescriptions
  - Implementation Plan

<b>Bibliography</b>	<b>3 pages</b>
